

Description

- Square Cell Multi Layer Pads are constructed of three layers of thick square cell rubber sheets with two steel plates of 1.5 mm thickness.
- Due to suction pockets formed by the square cell design the pad offers better grip on the floor surface.
- Higher Load capacity than Ribbed Multilayer Pad.

Technical Data

Item Code	Length (L)	Width (B)	Thickness (s)	Deflection	Max. Load
	mm	mm	mm	mm	N
SP SMLP152	152	152	35	4.5	10000
SP SMLP102	102	102	35	4.5	4500

Note :
Due to policy of continual improvement, the specifications are subject to change without prior notice.
Measurement are subject to 5% tolerance.
To achieve good sound suppressions do not over load fitting.
